

# MEDVANCE<sup>®</sup>

## *Foam Dressing*

Improving patient care and enhancing the quality of people's lives

# MedVANCE<sup>®</sup> Foam Dressing

## Features and Benefits:

- High-absorption capacity to manage moderate to highly exuding wounds
- Non-adherent foam absorbs wound exudate and does not stick to the wound bed
- Provides moist wound healing environment
- Breathable PU film reduces friction, extends wear time and provides a barrier to fluid or microbial contamination
- Comfortable to wear and easy to remove

## Product Description:

MedVance<sup>®</sup> Foam is a non-adherent polyurethane foam dressing that does not stick to the wound bed.

The porous structure facilitates faster and stronger absorbent capacity and provides a moist wound healing environment.

Breathable polyurethane film allows vapor transmission and extends wear time and the soft and comfortable foam may help redirect pressure.

MedVance<sup>®</sup> Foam is available with and without hydrocolloid adhesive border.

## Indications for use:

Medvance<sup>®</sup> Foam is intended for the management of moderate to heavily exuding acute and chronic wounds, including partial and full thickness wounds such as:

- Diabetic foot ulcers
- Venous leg ulcers
- Pressure ulcers
- Donor sites
- Skin abrasions
- Superficial and partial thickness burns

## Product Availability

### Medvance<sup>®</sup> Foam—Non-Adherent Foam Dressing

Product Code	Size	Packaging	HCPCS
