

What Makes Us Different:

Silovance Nano Silver Wound silver is added as a preservative that may help inhibit the growth of microorganisms within the solution while in storage, which was established through testing in accordance with USP <51> and was shown to inhibit the growth of microorganisms such as: Staphylococcus aureus, Pseudomonas aeruginosa, Escherichia coli, Klebsiella pneumoniae, MRSA, VRE, as well as fungi such as Candida albicans and Aspergillus niger.

Indications For Use:

Silovance Wound Dressing Gel is intended for the management of:

- Prescription applications
- Diabetic ulcers
- Pressure & stasis
- Ulcers
- Surgical incision sites
- Graft and donor sites
- Device insertion sites
- Skin tears

OTC applications

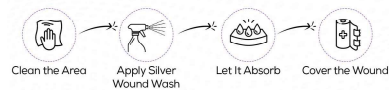

- First and second
- Degree burns
- Lacerations
- Abrasions
- Minor cuts
- Skin irritations

Features And Benefits:

- Revolutionizes wound care with silver's natural strength.
- Defends against microorganisms, promoting safer healing.
- Ensures gentle, non-irritating wound cleansing.
- Rapidly absorbs, speeding up the healing process.
- Pain-free application for a soothing experience.

How To Use:

Silovance Nano Silver Wound Wash for normal skin and minor wounds, minor burns, abraded skin, and irritated areas. Aids in removal of excessive skin oils, dirt and debris. Effective cleansing solution.

1. Clean the Area
2. Apply Silver Wound Wash
3. Let It Absorb
4. Cover the Wound
